1

Generate token agreement

Generate token agreements from Liquifi's library or upload your own. Add custom tags to your agreement to collect additional information you want from your stakeholders.
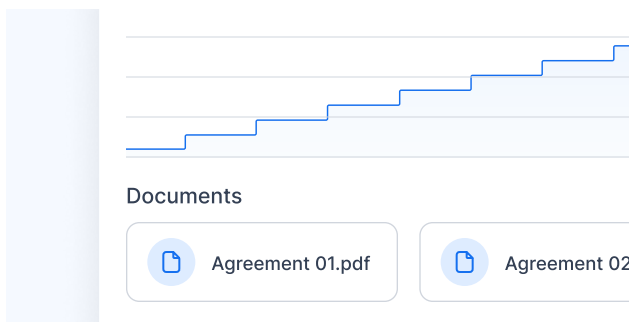

2

Accept token grant

Stakeholders receive, sign, and fill out any additional information added to the document in the platform to access their token plans page.

3

View signed agreements on Liquifi

Signed agreements and certificates of completion are uploaded and attached to your token grants and viewable at any time by stakeholders.
